

Guardians of the People Network

Health for the People, by the People

Organized as a private Expressive Association that is international and non-governmental in scope for the purpose of creating an alternative health reality For The People, By The People.

Mission Statement

The Sound Health Research Institute (SHRI) is a registered, exempt, non-governmental organization established to support sound health. The Trustees, considering the private, expressive association options of those associated with SHRI, have founded an integrated association to be known as the "Guardian Network." The Mission of the Association is as follows:

1. To do no harm
2. To facilitate the private, expressive association communications and activities of the Guardian Network under the Private Association Pledge (the Guardian Associates), to end so that they may achieve and maintain a status of Sound Health for themselves, their families, and communities together, **Health for the People, By the People.**
3. To provide educational opportunities; free or low cost software programs; and other activities to achieve and maintain **Health for the People, By the People.**
4. To engage in private, expressive associations communications and activities in collaboration with the Guardian Network, through educational activities, to achieve a Network of **Health for the People, By the People.**
5. To provide mutual dispute settlement and to maintain the private database of those engaged in their expressive association rights and have taken the Private Association Pledge, which states:

"As a Wellness Professional, Health Care Worker, Provider, Student, Administrator, Support Person or Health Care Recipient, I Swear that My Talents, Skills, and Knowledge Will NOT Be Used to Cause Harm, Coerce any Person or Force any Person to receive any unwanted Procedure or Destroy any Rule of Legitimate, Ethical and Humane Law. I will act only with informed consent, for mutual benefit of all concerned, within the private expressive association.

I affirm I am NOT an agent of any organization or group whose intention is to obstruct health freedom rights of Optimal Health. I agree as I enter this Oath, to be under the rules of mediation and arbitration of the Guardian Association."

6. To cooperate in private association with other individuals and organizations to achieve and maintain Universal Sound Health.
7. To participate, periodically, with a set schedule, online and in person, private Guardian Network Meetings among the Guardian Associates and allies to develop Guardian Associates programs and activities and to help us guide the Trustees in the governance of the Association.
8. To keep Confidential and Private, except to other Network participants, the activities of the Guardian Network unless expressly permitted.
9. To honor by law, intention and deed the intellectual property entrusted to each member for the task of supporting the goal of **Health for the People, By the People.**
10. To provide each member at least twelve Vocal Profiling Software Programs and accompanying training developed by Sound Health and Sharry Edwards that will be made available each year. Each program will be assigned one, and only one, registration.

I acknowledge that I may cease my participation in the Guardian Network by written notice or bringing to an end any obligated monthly dues. At such time Sound Health has no obligation to continue my membership or privileges.
